Railing Support GLA F100 HCP

General Information

Adapter plate for connecting railings to the TP F100 profile. Suitable for railing components of sizes 7 and 8 – 1 1/4‘ and 1 1/2’ tubes.

Installation

1. Depending on the railing size selected—1 1/4“ or 1 1/2”—choose the appropriate hole pattern for the adapter plate.
2. Screw the railing base (sold separately) to the adapter plate.
3. Connect the adapter plate and support profile with 4 Self-Forming Screws FLS.

Material Properties

Halogen-free	0
UV-resistant	0

Material

Primary element material	steel
Surface finish	HCP
Corrosion protection class	C4

Moments

Type	-M{X,perm.}
GLA F100 HCP	2.3 kNm

Additional information

The components meet the requirements of DIN EN ISO 14122.
