Profile Coupling PK 46 HCP

General Information

Internal connecting element for joining two Profiles PRO 46. Particularly suitbale for vertical extension. Should the component be used for horizontal application, the maximum permissible bending moment at the connection point must be observed.

Installation

Fix connection with 8 Hexagon Self-Drilling Screws SKB ST 5.5 x 16 HCP, maintaining the largest possible screw spacing for optimal leverage.

Socket Bit AF: 8 mm

Material Properties

Halogen-free	0
UV-resistant	0

Material

Primary element material	steel
Surface finish	HCP
Corrosion protection class	C4
