Angle Connector CN CC41

General Information

Pre-assembled connecting element especially for frame structures made of channels. High-speed assembly system for 90° connection of Channels MS 41. Locks automatically by pushing down the bolt head and at the same time supports its own weight. Secure, form-locking, non-positive connection. Serrated speed nut with clamping bolt M10. Ideal shaping for high stiffness.

Installation

Tightening torque: 40 Nm

Material Properties
