Safety Strap SL

General Information

Additional safety feature for Beam Clamps supporting tubes of nominal diameter DN 80 and larger, required for installations meeting the Vds standard. Dimensions and material meet the VdS CEA-guideline for Sprinkler systems.

Installation

The safety strap is bent on the construction site to the form of the beam, so that it securely encompasses the edge of the beam flange.

Application:
Type 1: DN 80 - NB 100
